

2019 Migraine Research Foundation Impact Awards

Call for Letters of Interest for Two Projects

1. Research on Childhood Migraine and/or
2. Research on New Therapeutic Targets for Migraine

The Migraine Research Foundation, a US nonprofit that raises money to fund innovative migraine research, invites both US and international researchers to submit Letters of Interest for *one or both* of the two 2019 topics:

Topic 1: Submit a letter of interest for a project that will add to the understanding or improve the treatment of **Childhood Migraine**.

Topic 2: Submit a letter of interest for a project that will add to the understanding of the **Therapeutic Potential of a New Treatment Target for Migraine** (other than CGRP).

Selected applicants will be invited to submit a full proposal later this year. **The Migraine Research Foundation will continue to issue an open RFP for seed-money grants (up to \$50,000) in the spring.**

Deadline: April 8, 2019

Funding: Each Award has a maximum budget of \$200,000 for a period not to exceed 3 years

Content: The LOI must include:

- a description of the proposed project, including aims and methodology
- how the proposed project will impact the understanding or treatment of childhood migraine (Project 1), **or** how the proposed project will add to the understanding of the therapeutic potential of a new treatment target for migraine (other than CGRP) (Project 2)
- why the proposed project is innovative
- the names of investigators, institution, and contact information

Length: 2 pages maximum

Evaluation Criteria: innovation, scientific merit, feasibility

Submission: By email only: 2019ImpactAward@MigraineResearchFoundation.org

For further information: email Sam Yates at syates@MigraineResearchFoundation.org or call 212-249-5402.
